**BRITISH MOVEMENT
CAMPAIGNS AGAINST
IMMIGRATION
AND
MULTI-CULTURALISM**

Last weekend we should have been celebrating the Summer Solstice, gathering with family, friends, and comrades. Instead we are watching the world turn against the white man.

The death of a black career criminal in America has seen the black lives matter movement and all factions of antifascism come together to push the extreme left views that all white men and women have "white privilege". Nothing is further from the truth. The black and minority ethnic communities within our countries are allowed to have their own way and exclude the white man yet we the white man cannot do the same.

These hypocrites that have taken to the streets are demanding that the white man should apologise for all the injustices supposedly done by them to others. They are also demanding we take the knee as an apology. Never we will take the knee. They have destroyed historical monuments, attacked the police, attacked lone individuals or small groups. In America they have took it further, as well as what we have seen in Britain and across Europe they have destroyed peoples property, looted, set fire to police stations and even taken over an area of a city where only black lives matters supporters are allowed.

These so-called peaceful protests are to get justice for all the racism and equality. Yet they are not practising what they are trying to preach as the whole tone is that the white man must be destroyed. Which is nothing to do with equality.

The Mainstream Media of course is showing only the damage and violence done abroad. They are joining in the narrative that only the white man is racist. Last weekend veterans and football lads went out to protect important monuments in London. They were all branded violent racist by the MSM, the police turned up in full riot gear whereas the week before no riot gear for the blm protest and the police have taken to the knee and were attacked. The difference how they reported both weekends is no surprise really. The blm chased police, fired flares at them and that weekend over sixty officers were injured and hardly any arrests even though these protesters were vandalising monuments and trying to burn the Union Jack, but they were peaceful protests. The veterans and football lads went to protect our heritage, but it was deemed far right protest, one hundred arrests were made and only six officers injured. No reports of how groups of these animals were finding lone or small groups of whites and attacking them like animals. The only mention about this was when one black guy carried a white man away from a beating.

The white man has never had white privilege this is a myth set out by those who do not like the fact we work and build what we want to improve our lives. We have been and are continually treated worse than any other race in the world even in our own lands. We are branded criminals because we want to protect our own and make sure we have a safe and secure world to raise our own future generations.

Times like this the British Movement Women's Division slogan really needs to be remembered by us all and we are.

The Carriers of the future,
Protectors of the present
and
Guardians of the past.

Black Lives Matter Hypocrites

The Black lives matter movement and their hunt for equality is just a farce. The co-founder has even stated that they are “trained organisers” and “trained Marxists”.

In the UK they have set up a go fund me page which has raised over one million pounds, for what most of the unaware public will think is going towards funding help to create equality for black people, not that this funding is to help these people create and cause more destruction in our country. With the funding page there is no accountability of who is running it or where the funds are going.

The UK blm just like their American counterparts want a communist state across the world, so they can have all the power and control. That has worked well in their countries of origin as a lot still have areas with famine and no clean water. All they expect is for us to apologise for the past, yet this is the same thing they would push on the world.

The whole movement is hypocritical as they have no concern for the violence perpetrated by their own kind. They are not interested in helping them to better themselves. They only come out and protest when a black is killed by a white police officer. They do not want to deal with the drug problems and gang culture that most of their children are forced into.

In Seattle in America they have set up an autonomous zone taking over 6 blocks of the city, the residents and businesses had no choice. All forms of antifa have moved in pushing their extreme views with literature on how the world must be destroyed. All white members of this area were even made to do a guard of honour on Juneteenth day events around the park within the zone so that just the blacks can grieve and have their own rituals after taking donations from all whites within the zone.

The truth be told to black lives matter movement are only interested in raising money and destroying the world with antifa. Also making the rest of the world pay for their own destruction.

Now is the time for white men to come together and watch this movement destroy itself as that is all they are capable of is destruction.

AUSTRALIA

Is Communist China taking over Australia? Money makes the world go around, but...

Balancing international trade and foreign investment is at the very heart of globalisation and whilst most countries do maintain varying levels of protectionism, should developed countries, such as Australia, have exercised more caution before entering into trade agreements with countries of a vastly different, potentially hostile political regime; or permitted multiple strategic resources and businesses to be sold to companies controlled or part-owned by those governments ?

Australia seems to have dismissed the sage advice to 'not put all one's eggs in one basket', and now treads a fine line given China is absolutely our largest trading partner, to the extent that a 5% drop in China's economy would see a 2.5% drop here. Furthermore, Chinese ownership of, and investment in Australia's key resources: land, agriculture, commercial and residential real estate and a wide range of companies across all sectors has increased dramatically over the last few decades.

Back in 1993, China Southern, a CCP State owned airline acquired a 100 year lease on an outback airfield from the Western Australian government for just \$1AUD, transforming the former gravel airstrips into a multimillion dollar, all-weather pilot training centre. Permission to land or enter that sector of airspace by any Australian aircraft now has to be sought from Chinese Authorities, sparking concern that access could theoretically be denied, should relations become strained anytime in the future.

In 2015, The Port of Darwin Harbour, already a major trade hub within the Asia-Pacific Region and ideally located to expand international marine trade in the future was acquired on a 99 year lease for a winning bid of \$506 million AUD by The Landbridge Group, another CCP State owned company.

Due to this location, retention of this Port would be as vital to Australia's security in any future threat from hostile nations as it was in 1942 when Japan attempted to replicate the decimation it had wrought on Pearl Harbour.

Besides the multi-billion dollar export trade of natural resources and agricultural goods to China, the acquisitions by various Chinese companies include beef and dairy cattle herds, milk and meat processing plants, dairy companies, baby milk formula companies, sugar and cotton plantations, wind farms, coal mines, fruit orchards, wineries, some 9.1 million hectares (an area roughly the combined size of Scotland and Yorkshire) of agricultural land, 732 gigalitres of water - nearly 1.5 x the volume of Sydney Harbour and a health care conglomerate with a large portfolio of hospitals.

In fact, evidence of Chinese influence upon Australian policy dates back to the early 19th century and lasted for over a century; fast forward to the 21st century and, despite the multiple claims of Chinese Communist Party infiltration in Australian politics and educational institutions now under investigation, relations between Australia and China have remained amicable and mutually profitable - that is until... Australia first rejected the involvement of Huawei in establishing Australia's 5G network and then most recently led the demand worldwide for an independent inquiry into the covid-19 outbreak !

Without hesitation, China fired the warning shot which rapidly escalated into trade war: - an 80% tariff on barley imports for the next 5 years, a boycott of Australian wine and beef, rejection of major beef imports from 4 processing plants, a warning that they will stop students and tourists from visiting Australia to date. As two way trade between Australia and China has totalled in excess of \$200 billion AUD annually, the impact could be devastating and it seems the battle lines are drawn as in addition to these financial punishments, intended to bring Australia to submission, reports that Chinese State owned companies were poised to buy up Australian companies crippled by the covid-19 pandemic, forced the Australian government into a defensive move, declaring zero dollars threshold on foreign investment in a total crackdown.

Free Trade seemingly comes at a considerable cost !!

Words From Our Readers!

White Lives Matter

This year we have seen mainstream media over inflate impressions of blacks, sugar coating BLM activities and ignoring the harsh realities of the white race. A race that, time and time again, has been pressed and tormented by Asian grooming gangs, random acts of violence and attacks on memorials that mark British history. The removal and defacement of the statues of philanthropist Edward Colston, Cecil Rhodes at Oxford's Oriel College, and Sir Winston Churchill, arguably the greatest war leader ever, demonstrate the attempts of some to rewrite our history and dictate our future.

Why do we have to put up with it? Why is mainstream media doing this? What (((dark undercurrent))) is manipulating it? What do we need to do to shift the balance? Our friends and relatives have been dedicated to home-schooling our children throughout this pandemic. As they return to school education, how do we ensure that they are not influenced by this garbage?

We must stand tall and be proud of our history. It is our empire. Our race.

Grooming Gangs.

The term used by top police officers, MPs and council officials is keep quiet for the good of diversity, that is what is said when anyone mentions about Muslim Grooming Gangs. In the early 2000s The British National Party were kicked out of Telford for saying Muslim Grooming Gangs were sexually abusing young white girls. The BNP were told to leave Telford by the police for the good of diversity before they caused any trouble.

One police chief was taken off the case, for trying to investigate the Grooming Gangs, and was given early retirement. There are people that have tried to bring these Gangs to the public eye and have been arrested and put in prison for the good of diversity.

Two members of Britain First were sent to prison for supposedly harassing 3 Muslims who were on remand for raping a sixteen-year-old girl above a kebab shop in Kent.

Another person in the north of England was sent to prison for trying to report on the Muslim Grooming Gangs as they went into court. Naz Shah who represents Bradford west for the Labour Party shared and liked a post tweet out of a parody account of newspaper columnist Owen Jones it said “Those abused girls in Rotherham and elsewhere should shut their mouths for the good of diversity”. Naz Shah was not happy because it stigmatised the Pakistani community. Most of our cities and towns are infested with Muslims praying on our white girls. These Muslims are leaving prison and going back to the communities where they committed these crimes and have been spotted walking around by the girls they raped and abused.

We must stand together and take on the Muslim Grooming Gangs and the Authorities. Remember the 14 words, we have to give our white girls a safe future.

Cashless Society and More of Big Brother Watching Us

Since the outset of the pandemic crisis we have been urged to use card payments and many places will not accept cash. Will this lead to that being the only way to pay sometime in the future? We believe this is what those in power want for many reasons . One it saves them the cost of printing money and more importantly it allows them even more control over us. They can track and trace where and when we spend our money.

There is also the risk for some people, once they are no longer using cash, of recklessly spending money they do not have therefore a lot of people will end up in debt. This is exactly what they want because while people are worried about paying the bills, they will not have time to notice what else is going on around them. What about those who cannot or will not use cards to pay. Are they going to be left with no means of buying basic items needed to live? We know those most likely to be affected are the white elderly or people like us national socialists because we do not like or want to deal with the banks and those behind them unless we must.

Of course, the real reason they want a cashless society is so they can control all aspects of people's lives because they will know where you are what you are doing at any given time. If you dare to step out of line, they will have the means of punishing you. All they need to do is stop your bank card from working and that would mean you could not purchase the basic stuff you need to live. This would save them from the need having to jail us and all the costs involved in that. This might sound rather bleak and defeatist but just showing you what could happen if we allow it.

We must oppose them and their globalist agenda no matter the cost to us personally and by doing this. Others not yet awake to the agenda will at some stage wake up and join us, all we can do is keep the flame of national socialism burning and be proud to have done so.

OUR DAY WILL COME

Blunders by Boris and Team

We have been looking at the way those in charge have handled or have not this current crisis, there are three big mistakes along with numerous others so let us look at these three.

The first is Quarantine for those arriving from abroad and the closing of our borders. To make sure the borders agency has enough people to police this and to deploy armed forces to ensure our borders are secure during the crisis. Which would have stopped the many thousands of migrants from arriving and entering our Country with no health checks this would have slowed the spread of the virus surely. Maybe those in power know something we don't or the just don't care about us.

The second mistake was the speed or lack of it to how they reacted from day one because of cuts in spending there were not enough rapid-response teams. A major lack of the correct protective kit that was needed by the NHS to safeguard their staff. So, we had those who worked with the infected risking their lives. If our government really cared for its people, they would have ensured that there was a plentiful supply of what was needed. Also bought in more for the other front-line workers this would have helped stop the virus from spreading.

The third one is the lack of equipment to test people. The testing of people would have given those who treat and manage the disease of rough idea of the number of cases there was and what was needed to treat them. Instead we had the building of emergency hospitals which were not used or had very few patients a waste of taxpayers' money and they are always telling us they have no money to waste yet they seem to find ways and waste it.

All the mistakes made by those in power cannot be done because of stupidity. There must be a reason behind it the likes of Johnson receive the best education available in this Country. There must be a hidden agenda otherwise it makes no sense for it to happen.

Place in The A Lake District

The Lake District in Cumbria no place more English. You can travel for miles and just be absorbed by beautiful landscapes in all directions. But these beautiful landscapes are hiding one of Britons worse kept secrets. The secret of the Muslim grooming gangs abusing our young white girls.

This is about a town in the North West of Britain that has a long history of Steel and ship building.

But there is a hidden secret absorbing the town and that is that Muslim grooming gangs that are operating within the town. In May last year controversial hate figure Tommy Robinson was campaigning for election and during his campaign he tried to bring attention Muslim Grooming gangs operating in Barrow. But he was shut down at every turn.

In May 2020 on many social media platforms we witnessed the story of victims from this town. One victim escaped a couple of years ago, the other was locked up in “prison for her safety” as she had broken her bail conditions.

These conditions were only broken because she was taken against her will and then raped and brutally attacked and locked in a room above one of the many takeaways in the town.

The second victim has been back to court and her trial is set for August next year she was again remanded in prison. She is accused of perverting the course of justice. The police have still not arrested anyone in connection with sexual exploitation of this victim or any others in the area. In fact, they have stated there is no evidence of sexual exploitation in Cumbria. Yet look

at these images the abuse through messages and no one would let anyone hurt them like this just to make stories up.

The first victim tried to report her abuse in 2015 and got nowhere. Even she has been convicted of a few offences. Our police force only ever want to deal with historical cases. They are not interested in dealing with what is happening now and protecting our young white girls.

So, like Rochdale victims are made criminals, when will those in power help our young white girls and see they are groomed to tell lies by these Muslim grooming gangs, they are forced into drugs and alcohol abuse. Their lives are destroyed and if they do try to speak up, they are attacked by those who are supposed to help them. They need all to be more alert and help them all we can.

Our Families Being Targeted

Lockdown has created problems for some of our young families. They have been targeted by police and social services. The claims being that the children are at risk.

At the risk of what?

Being brought up with solid family values. Being proud of who and what they are. Being taught that drugs and gangs are wrong and to have better hopes in life.

The powers that be have decided that because some of us, chose different religions or dare to home school our children, that we are incapable of raising well balanced children.

Yet most children raised within our community are the most balanced young adults you could ever meet. They are not out on the streets involved in gangs and drugs; they are not destroying the place where they live, and they definitely will not be taking the knee to appease the Marxists left.

Yet all over social media the left-wing parents were pushing their children to appease the left and thinking it was great. They are raising their children to apologise for who and what they are, now that is serious child abuse.

We Will Have Our Country Back!

BRITAIN is in rapid decline. Decades of subversion by the political Left and stupidity or worse from the political centre, the liberals and conservative Right has totally undermined the spirit and structure of what was once Great Britain. Successive governments have duped the British people into accepting the constant influx of foreigners, immigrants, economic migrants, asylum-seekers foreign investors, foreign companies, foreign banks, foreign customs, foreign cultures, foreign religions, foreign attitudes. Successive governments have embroiled Britain in un-winnable overseas conflicts, wars which do not offer Britain security but leave the UK vulnerable.

Large scale non-white immigration coupled with years of almost state-sponsored multi-culturalism, rampant materialism, and mind-numbing popular entertainment has undermined traditional British values and turned the ordinary British worker into a soulless consumer, addicted to fast food and the slop poured out by decadent, multi-national media, hooked into international brand-named industries. The time has come to call a halt to the betrayal and corruption of the British people by these so-called democratic forces.

The time has come to force radical changes with radical ideas of British National Socialism.
